

VANGUARD® MOLDED FIBER

Our Vanguard® offering is a groundbreaking and award-winning line of molded fiber plates and containers using proprietary alternative compounds to achieve grease-resistance performance without relying on added PFAS. Vanguard® demonstrates our continued commitment to choice and innovation in foodservice packaging.

No-Added PFAS

Per- and polyfluoroalkyl substances (PFAS) are a class of synthetic chemicals used in many products to impart water- and grease-resistant properties. Vanguard® uses alternative FDA-approved chemistries to achieve similar performance without the use of added PFAS. Patents pending on the new formula.

BPI-Certified Compostable

Biodegradable Products Institute (BPI) is a third-party organization that provides certification for materials and products that break down in a commercial composting environment. "BPI Certified" means a product has gone through a rigorous testing process for compostability.

GreenScreen Certified™ Silver

Developed by Clean Production Action (CPA) and the Center for Environmental Health (CEH), GreenScreen Certified is an independent, non-profit certification standard that promotes the use of preferred chemicals in products and manufacturing. Silver certification prohibits the use of chemicals in the Restricted Substances List (RSL) - including PFAS - set within each product category plus thousands of chemicals listed on globally recognized chemical hazard lists. Every chemical used in the Vanguard® formulation went through evaluation. This certification attests that the product does not contain known chemicals of high concern to human health and the environment.

VANGUARD® MOLDED FIBER

Fiber Containers, Bases, & Lids

Made with renewable molded fiber

No PFAS** added

Proprietary alternative compounds to achieve grease-resistance performance

Patents pending on the new formula

BPI-Certified compostable*

GreenScreen Certified™ Silver: Every chemical used in the Vanguard® formulation went through evaluation. This certification attests that the product does not contain known chemicals of high concern to human health and the environment.

Microwaveable and freezable

Hot and cold food friendly

Grease and cut resistant

Clear Lids

PLA 

Made from renewable, plant-based plastic

BPI-certified compostable*

Cold foods only

RPET 

Made from 100% post-consumer recycled PET

Ideal for cold or hot foods

* Compostable in commercial facilities only, which may not exist in your area.

** Per- and polyfluoroalkyl substances

The GreenScreen Certified Logo and word marks are certification marks of Clean Production Action, Inc.
